

com.batteryworkshop.tests.
BatteryUnitTest.testAddRepairReport

```
graph LR; A[com.batteryworkshop.tests.  
BatteryUnitTest.testAddRepairReport] --> B[com.batteryworkshop.models.  
Battery.addRepairReport]; A --> C[com.batteryworkshop.models.  
Battery.getRepairReports];
```

The diagram illustrates a dependency between a test method and two model methods. A gray box on the left contains the test method name. Two blue arrows point from this box to two white boxes on the right, each containing a model method name.
